Previous meeting minutes approved

LCFR Training Report:

1. AED/Combi Tube 18 students passed
2. BLS protocols 22 students passed
3. BLS Challenge 15 students passed with 2 re-tests
4. CPR course 10 students enrolled, 6 passed (1 passed after a re-test), 3 failed
5. EMT B Testing.
Class started with 28; 1st class 26; 1st test 22; second test 19
Behavior and grading policy implemented

BLS Protocols Update and Review

1. No report

Old Business:

1. Rope I course mistake made on the TDTR, rescue students are allowed in the class.

New Business:

1. Discussion presented with respect of Explorer students taking CPR at their station level rather than at the training center. There was a significant learning curve with the explorer program.
2. Increasing concerns of the training center was discussed relating to attitude, behavior, and grades in the EMT B program. A county policy was developed and provided to each student regarding class expectations. If test scores are lower than 80% an action plan would be developed. The BLS committee chair and student's chief would be notified.

The next meeting will be on December 6 at 1900hrs (LCFR Training Center)
